

IMPACT Family Health

Taking action today to prevent disability tomorrow in rural Bangladesh

There are only 26 doctors for every 100,000 people in Bangladesh (almost 10 times fewer than in the UK)

Bangladesh has one of the highest rates of malnutrition in the world

Almost half the population (65 million people) live below the food poverty line

Four-fifths of pregnant women give birth without medical help

Inner Wheel Clubs are transforming the lives of impoverished men, women and children...one village at a time
